

TFM Performance Standards

Properties	NEMA Test #	Unit of Measure	Coveright TFM	NEMA LD3-2000
Light Resistance	3.3		No to slight effect	slight effect
Stain Resistance 1-10	3.4		No effect	no effect
Stain Resistance 11-15	3.4		slight to moderate effect	moderate effect
Resistance to Surface Wear	3.1	cycles	Solids 400 Prints 100 (See note 1)	400
Ball Impact Resistance	3.8	inches	(See note 2)	15 (VGL)
Boiling Water	3.5		No to slight effect	no to slight effect

1 Using Coveright's specialized High Wear Resistant Resin (DMSC03), high scratch & wear resistance of 400 cycles is achieved

2 Using Coveright's specialized Impact Underlay (TMU) and ¾" thick board having a density of 45 lb., NEMA standard of 15 inches is achieved
